

# The Power of Partnering with Families to Transform Health

1) Think about “families as the drivers of all that happens”. What does (or could) this look like for your quality improvement initiative?

2) Think about the various engagement methods. (See toolkit page 8) Which method(s) have you used, and could you imagine using? Why?

3) In your QI work, what are some reasons that engaging families does not happen enough?

What can YOU do to change that?
