2:45 – 3:00 pm	<p>Wrap Up & Next Steps <i>Sharon Fleischfresser, MD, MPH</i></p> <p><i>Wilderness Ballroom 2&5</i></p>

Learning Objectives

1. Apply relevant examples from pediatrician Dr Rinehart on best practice use of Shared Plans of Care to the children and families served in your team’s QI project.
2. Discuss activities associated with your team’s selected focus area.
Focus areas include:
 - Youth health transition
 - Family understanding of medical home
 - Family understanding of care coordination
 - Communication with early intervention
3. Complete the *Care Coordination Measurement Tool* for at least one case study.
4. Conduct a series of PDSA cycles to experience how they affect learning about a process
5. Discuss how to engage families, youth and partners in Shared Plans of Care.
6. Network with professionals and families, including other health care teams working to advance family-centered care coordination and collaborators from WI’s CYSHCN programs that are able to support families and teams for the QI project.
